

| Product Description  |              |                       |                              |
|----------------------|--------------|-----------------------|------------------------------|
| Connector Type       | LC-LC        | Cable Diameter        | 2.0mm / 3.0mm (Customizable) |
| Aramid Yarn          | Imported     | Grade                 | Bend-Insensitive, Grade A    |
| Min. Bend Radius     | 7.5mm        | Min. Bend Radius      | 20/10D (Dynamic/Static)      |
| Attenuation@850nm    | 0.30dB/KM    | Attenuation @1310nm   | 0.36dB/KM                    |
| Attenuation @1300nm  | 1.0dB/KM     | Attenuation @1550nm   | 0.22dB/KM                    |
| Connector Durability | ≥1000 cycles | Operating Temperature | -20~70°C (-4~158°F)          |
| RoHS Compliance      | Compliant    | Standard              | YD/T1258.2-2009              |

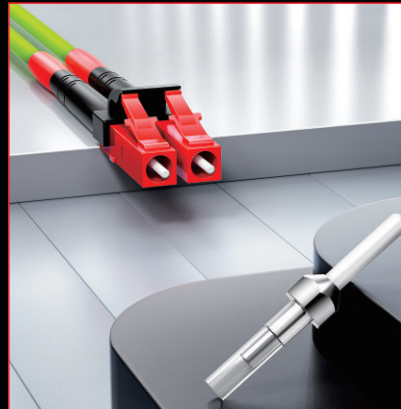

## LC-LC单模多模光纤跳线

### LC-LC SINGLE-MODE AND MULTIMODE FIBER OPTIC PATCH CORD

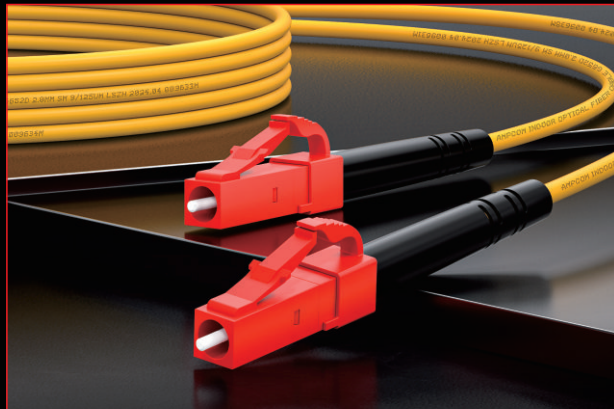

Fiber end-to-end subsystem connections in industrial parks and public areas.

LSZH outer jacket and precision zirconia ferrule ensure low insertion loss.

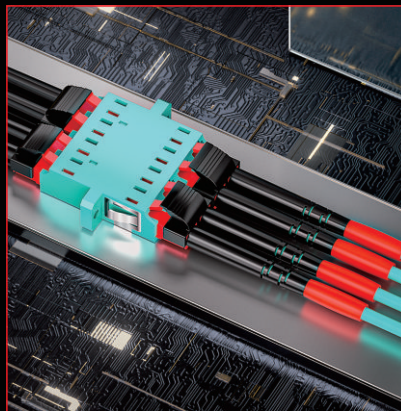

Build a stable and high-speed network between fiber devices in data centers

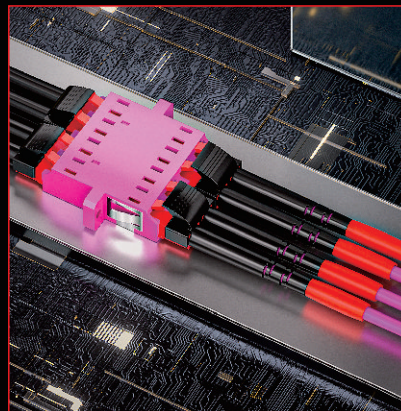

LC to LC Single-mode Single-fiber Patch Cable

LC to LC Single-mode Duplex Fiber Patch Cable

LC to LC 10G Multimode OM3-300 Fiber Patch Cable

LC to LC 10G Multimode OM4 Fiber Patch Cable

LC to LC 10G Multimode OM5 Fiber Patch Cable
